

**DEPARTMENT OF HEALTH**  
**Septic System Abandonment Form**

Dear Property Owner:

Your home/building is scheduled to be connected to the town sewer system; you are required by the Connecticut Public Health Code to have the existing septic tank and/or hollow leaching structures properly abandoned. As per the Technical Standards for Subsurface Sewage Disposal Systems Pursuant to Sections 19-13-B103 and B104, Section II D. "Abandonment of subsurface sewage disposal system components (i.e., septic tank, hollow leaching structures) or cesspools shall be performed in such a manner as to eliminate the danger of the system components or structure inadvertently collapsing. The responsibility for abandonment lies with the property owner. Structures that are to be abandoned shall be emptied of all sewage/wastewater prior to abandonment. Structures shall be filled with sand, gravel, or crushed and the area backfilled with clean soil."

Prior to issuance of the Brookfield Water Pollution Control Authority Discharge Permit the tank and/or hollow leaching field must be abandoned, and this letter of confirmation must be signed by the property owner and the contractor in the appropriate spaces below. **SUBMIT FORM WITH ORIGINAL SIGNATURES.**
