# **Police Station Needs Study Addendum #1 May 9, 2017**

**Additional Information :**

The Study shall not assume for any hazardous materials as part of the current station construction. While a formal study has not been performed, there is no reasonable basis or expectation to suspect that the current station has any hazardous materials used as part of the construction. If such materials are discovered at a later date, an adjustment will negotiated at that time, if required, to encompass for a possible change of the scope of work to deal with the issue, if needed.

Traffic studies of the road traffic will not be required.
