The department may refuse to issue any such license for cause, and may revoke or refuse to renew any such license for failure to carry out and conform to the provisions of this part or to any regulations adopted hereunder, or for any violation of title 22a. No person shall be refused a license or a renewal thereof, and no license shall be revoked, without an opportunity for a hearing conducted by the Department of Public Safety in accordance with the provisions of chapter 54.

(c) The provisions of this section shall not apply to (1) a person who is engaged in the
disassembling, transportation and reconstruction of historic buildings for historical purposes or in the demolition of farm buildings or in the renovation, alteration or reconstruction of a single-family residence, (2) the removal of underground petroleum storage tanks, (3) the burning of a building or structure as part of an organized fire department training exercise, or (4) the demolition of a single-family residence or outbuilding by an owner of such structure if it does not exceed a height of thirty feet, provided (A) the owner shall be present on site while such demolition work is in progress and shall be held personally liable for any injury to individuals or damage to public or private property caused by such demolition, and (B) such demolition shall be permitted only with respect to buildings which have clearance from other structures, roads or highways equal to or greater than the height of the structure subject to demolition.
